LES CITADINES

Experts in inner-city collection

Citadines are specially designed to collect municipal and household waste in city centres and historic centres. In their low hopper version, they are also used by city cleaning services to empty city waste bins (manual collection).

Their manoeuvrability gives Citadines the added advantage of speedier waste collection. Operating costs are further reduced by using an LCV, which is lower maintenance and cuts fuel costs.

The aluminium alloy design (shovel and truck) gives the vehicle the highest useful load on the market in its size category.

All the Citadines models can run in electric mode.

MICRONÉA

- › 100% electric vehicle, highly adaptable to all collection constraints, particularly in dense city centers.

CITANÉA

- › The all-aluminum design of this equipment delivers the highest legal payload on the market. Can be driven with a standard driver's license.

Custom waste collection specialists

	MICRONÉA	CITANÉA
Châssis	2,25 T	3,5 T
Charge T	0,3 T	1T
Volume m ³	2,5 m ³	5 m ³
Certifié CE	Yes	Yes
Durée de cycle		9 to 12 s
Permis	VL	VL

URBANÉA* URBANÉA BIODÉCHETS

- › the URBANÉA is designed for conventional waste collection. its heavy-duty version, featuring a 100% watertight body, is purpose-built for biowaste collection.

*Also available in DUO version

MAXINÉA

- › Very high payload capacity, ideally suited for city centers as well as peri-urban environments. Designed for mixed collection (manual and containerized).

Vehicle leasing, a winning option!

Now, more than ever, waste collection companies and local authorities are having to focus on controlling their finances. In order to allow market players to pursue a viable business policy, FAUN is progressively developing its concept: «Vehicle leasing - a winning option»!

The outsourcing arrangement proposed by FAUN allows companies and local authorities to make a detailed budget plan, thus increasing control over their investment (IFRS standard) and operating budget, without impacting their borrowing power.

Effective maintenance management and a high-tech vehicle fleet speeds up vehicle turnaround times.

FAUN provides its partners with a vehicle fleet ranging from 5 to 29 m³: Citadines for city centre waste collection, waste collection trucks for picking up household waste, industrial waste, organic waste and bulky waste, whether in trays or underground containers, together with road maintenance vehicles.
