# VERRANÉO

## Ideal for collecting glass

At a time when the recovery of specific waste streams is becoming an absolute priority for local authorities and operators, FAUN is expanding its range of refuse collection vehicles with the **Verranéó**, its new RCV dedicated to **glass collection**.

Engineered to handle the demanding constraints of glass collection with exceptional durability, the Verranéó also features a 100% watertight body.

### Enhanced Watertightness

- › Leachate collection trough equipped with a 2-inch drain valve
- › Standard sealing system featuring a front body extension with safety netting
- › Non-compaction design to preserve glass stream integrity
- › High-level bin emptying system

### Special Noise-Reducing Coating for Glass

- › Noise-reducing body lining specifically designed for glass to lower urban sound levels, protecting both residents' peace and quiet and loader crew hearing.

### CIN ENERGIE - EFFENCO:

- › When installed on the VERRANÉO, either the CIN ENERGIE or the EFFENCO system allows container lifting operations to be performed with zero additional fossil fuel consumption.

## Versatility and On-Board Technologies

- › Chassis from 16 T to 32 T, available in internal combustion (ICE), CNG/gas, hybrid, and 100% electric power options.
- › Large volume body (up to 28.5 m<sup>3</sup>) with customizable hopper width (2,300 mm or 2,500 mm).
- › Bin versatility: handles 2-wheel and 4-wheel bins (80 L to 1,000 L).
- › Smart options: pre-equipped for geolocation, dynamic weighing, and lifter-integrated RFID identification for precise collection tracking.

## Electrical & Hydraulics

- › Advanced bin lifter electrification: high-voltage motor-pump units (24 V or 400–800 V).
- › Energy efficiency: compatible with CIN Énergie or EFFENCO systems to reduce carbon footprint and fuel consumption.

## Safety and Comfort

- › Total safety: optional 360° camera visibility.
- › Comfort: 2 loader positions featuring flexible, retractable footboards for safe and comfortable mounting and dismounting.
- › Optional automatic footboard control.

## Spécifications techniques

| Specifications       | Details                                                                            |
|----------------------|------------------------------------------------------------------------------------|
| Waste Types          | Glass                                                                              |
| Available Capacities | 10 m <sup>3</sup> to 28.5 m <sup>3</sup>                                           |
| Bin Lifter           | Single comb lifter, manual or assisted (2-wheel/4-wheel bins from 80 L to 1,000 L) |
| Weighing Options     | Dynamic lifter weighing or overall sub-frame weighing (certified or non-certified) |
| Power & Hydraulics   | Motor-pump units (24 V or 400–800 V), variable displacement pump                   |

## Vehicle leasing, a winning option!

More than ever, waste collection companies and local authorities must manage their finances effectively. To help market players implement a viable policy, FAUN is progressively developing short- and long-term rental options.

The outsourcing solutions offered by FAUN enable companies and local authorities to achieve precise budget planning—keeping tight control over both capital expenditure (under IFRS standards) and operating budgets—without tying up their borrowing capacity. Thanks to efficient maintenance management and a fleet featuring the latest technology, vehicle downtime is kept to a minimum.

FAUN provides its partners with a fleet ranging from 5 to 29 m<sup>3</sup>: city models for downtown collection; refuse collection vehicles (RCVs) for household and industrial waste, glass, bio-waste, green waste, and bulky items whether collected from bins or underground containers as well as street maintenance vehicles.
